

How to view upcoming MSHP Academy Training

Access the [MSHP Academy Portal](#), once on the portal page training will be located in the “Resources” box in the lower right corner.

Training Catalog will show the course description (click show more) and available classes (click to view details).

Training Catalog

The Training Catalog reflects current courses offered by Missouri State Highway Patrol. For each course, you may view a list of available training and request enrollment for any future events.

Training ▲	Description	
Crash Investigation Programs - Advanced Crash Investigation	Prerequisite: The successful completion of Basic Crash Investigation or an equivalent course. (show more)	See 1 Available Class
Crash Investigation Programs - Basic Crash Investigation	Prerequisite: A basic understanding of algebraic functions is required to work the formulas taught. (show more)	See 1 Available Class

1. Class details will populate once “See available class” is clicked.

Advanced Crash Investigation

Prerequisite: The successful completion of Basic Crash Investigation or an equivalent course.

Available Training shows upcoming training classes in a list.

- The list of classes can be sorted by event or dates by clicking on the bold header at the top.
- The blue bar on the left indicates a class that was recently posted.
- In the status column the list will indicate if the class is upcoming or open.
- The  indicates that the class has prerequisites.
- If registration is available for the class there will be a “Register” button, if there isn’t one it means that registration has not opened for that class.
