Your role as case agent is a very important part of the digital analysis process. It is imperative that you provide as much detailed and targeted information as possible when submitting a case for digital forensic examination. Please keep this in mind when completing this section of the Forensic Service Request. Search warrant affidavits and incident reports are welcome attachments when submitting a case for digital forensic analysis.

I have read and understand the terms for evidence submission. To the best of my knowledge, the evidence is being submitted for digital analysis under proper legal authority.
